

GUSTAVO SÁ

DESIGNER UX / UI / FRONTEND

38 years old, Married

WORK EXPERIENCE

Spassu (Petrobras)

SR Designer UX / Frontend

Jun 2019 - 2020

Team member of digital transformation project for oil and gas company with 68k employees. All the projects are treated as startups and I acted like UX / UI Designer and Front end developer.

Started with Design Sprint (Understand, Diverge, Converge, Build and Test), using Design UX skills to make product discovery, user journeys, sketch, prototype low / high and navigable to test.

As a frontend helped the team coding in Ionic 5 / Angular 8 / Sass and integrate with google and third parties APIs. Small modifications in MySQL and backend NodeJS. Designing and developing front-end features (UX and UI) for mobile and web applications. Implementing a Scrum methodology for the work.

- JavaScript / TypeScript
- HTML 5
- Bootstrap / Material Design
- Sass / Less
- Jira
- Git
- MySQL
- Rest API
- Ionic 5 / Angular 8
- Scrum / Kanban
- Google and third parties integrations
- Product Discovery and User journey
- Adobe Photoshop
- Figma / Marvel / Adobe XD
- Visual Studio Code

Reserve Systems

Supervisor Designer UX / UI / Front end

Aug 2017 - May 2019

Supervise the creation and maintenance of new features for web and mobile platforms in a 6 people team.

I led the project for new features, responsive layout inside the Reserve system products, Reserve Token AP, Intranet, the new Website and digital Marketing using Design UI / UX practices and Frontend code.

- JavaScript / TypeScript
- jQuery
- NPM
- AngularJS,
- Ionic / Angular 4
- HTML
- SASS / Stylus
- Bootstrap
- Adobe Photoshop / Illustrator
- Rest API
- Google Analytics / Hotjar,
- Marvel
- TFS
- Git
- Wordpress a
- Visual Studio Code.
